DEQ issues \$22,609 penalty to Ascension Parish landfill

BATON ROUGE – The Department of Environmental Quality recently issued a penalty assessment to D&J Fill, La. Hwy. 928 in Prairieville.

D&J Fill is a construction and demolition landfill that was issued the penalty in early January after several inspections revealed differing violations. Violations range from not depositing waste in the smallest practical area to failure to minimize noxious odors.

The company has a right to appeal the penalty assessment.
